Year 3 Educational Visit to the Natural History Museum: Rocks Exhibition on Monday 11th December 2023

Dear Parents/Carers,

We are excited to share that the Year 3 team have organised an educational visit to Natural History Museum: Rocks Exhibition. The objectives of our educational visit are:

- To view a variety of different types of rocks, including metamorphic, igneous and sedimentary rocks.
- To deepen our understanding of the properties of these different rocks.
- To understand how different types of rocks, such as metamorphic, igneous and sedimentary rocks are formed; how these processes affect the appearance of these rocks.
- To view the dinosaur gallery, which includes some of the first scientific discoveries ever made, to enrich our understanding of fossils.

You will find all the details of the educational visit below. Please do not hesitate to get in touch if you have any questions.

Yours sincerely,

The Year 3 Team
